# 3- MIND MAPS

## Procedures for the construction of the mind map

- Start in the center with an image of the topic, using at least 3 colors;
- Use images, symbols, codes, and dimensions throughout your mind map;
- Select key words and print using upper or lower case letters;
- Each word/image is best by itself and attached to its own line;
- The lines should be connected, starting from the central image; The lines become thinner as they radiate out from the center;
- Make the lines the same length as the word/image they support;
- Use multiple colors throughout the mind map, for visual stimulation and also for encoding or grouping;
- Develop your own personal style of mind mapping;
- Use emphasis and show associations in your mind map;
- Keep the mind map clear by using radial hierarchy or outlines to embrace your branches;
